Content

o The report

o The presentation

o The theory

o The implementation

o Quiz

o Minus point

The report

- **Title page**
- **Table of content**
- **Table of figure/table**
- **Chapter 1: Introduction**
  - 1.1 Overview
  - 1.2 Component
  - 1.3 Operation (figure)

- **Chapter 2: Implementation**
  - 2.1 Topology
  - 2.2 Component table
    - Device/IP address/installed software, service
  - 2.3 Installation
  - 2.4 Configuration
    - Step of config
- **Chapter 3: Result**
- **Appendix**
  - **Task table**
  - **Self-evaluation table**

The report

1	2	3	4
The report has illogical structure, bad format, lack of many required contents.	The report has acceptable format and lack of more than 1 required contents.	The report is clear, concisely, has good format and lack of one required contents (such as no topology). Or the report has full of content but may have some of the common mistakes on format.	The report is clear, concisely, has good format and full of required contents.

The presentation

1	2	3	4
All members have poor presentation skills.	At least 1 member interacts with audience, has clear voice with good pace.	More than 2 members interact with audience, has clear voice with good pace.	All members interact with audience, has clear voice with good pace
The presentation use the report to present.	The structure of the slide is inconsistent, illogical. Font size is less than 24. The viewer cannot stay focus on content of the presentation.	The structure of slide is consistent, logical and easy-to-follow. However, it may have some of common mistakes on slide format.	The structure of the slide and the presentation is consistent, logical and easy-to-follow.

The theory

1	2	3	4
The contents of the theory only show the definition of the project.	The contents of the theory show 1/3 of the required contents (the definition, functionality and the operation of the project).	The contents of the theory show 2/3 of the required contents (the definition, functionality and the operation of the project).	The contents of the theory show the definition, functionality and operation of the project.

The implementation

1	2	3	4
No Demo	Demo shows only the basic requirements.	Demo shows full basic and a part of the advanced requirements.	Demo shows full advanced requirements.

Minus point

o Use the word "You/your" in the report

o Late submission

The report	The presentation	The theory	The implementation	Quiz	Total
